Subject: Hastings Station Maintenance - Production Shut In

Notice Text:

Hastings Extraction Plant will be out of service for its annual maintenance beginning on Thursday, April 28, 2022 through Tuesday, May 3, 2022. This notice provides additional information regarding operating conditions on the EGTS system as a result of this outage. All gathering wet system production and direct taps feeding into the Transmission wet system flowing to Hastings must be shut-in by 7:00 am on Thursday, April 28, 2022. Any such volumes that are not shut-in shall be treated as Unauthorized Gas pursuant to Section 29 of EGTS's FERC Gas Tariff, and will be subject to confiscation in accordance with the Tariff.

Gathering production feeding Lightburn Extraction Plant will not be shut-in. The Bubbles listed below that can physically flow to Lightburn may keep their flows at 100% of nominated levels.

Please continue to monitor these postings for further updates. If you have any questions, please contact your Customer Transportation Representative or Interstate Marketing Manager.
