Comments:

The capacity posted in this report is intended to provide operational information for locations operated by
Eastern Gas Transmission and Storage, Inc. Capacity reported may indicate that capacity is available for contracting; however,
variables and conditions of an operational nature may prohibit the pipeline from contracting for these
quantities.  In addition, during the summer season (April through October), limited capacity which is not
reflected herein may be available subject to EGTS's storage fill requirements and other operational considerations.
Availability of receipt/delivery point capacity does not guarantee available mainline capacity.
Any questions regarding the information presented herein should be directed to a Marketing Manager
or Business Development Representative.
